

The **TEAMSTERS** Are *Already Working For Us*

On August 1, Teamsters Local 107 in Philadelphia filed a petition with the National Labor Relations Board for our union election at FedEx Freight in Cinnaminson. A few days later, FedEx Freight announced an 80-cent-per hour raise effective in October. This is not a coincidence. The union is already working for us, before we've even voted. Imagine what we can accomplish once we officially have our union!

We will stand strong and united throughout this process. We expect management to wage a "carrot-and-stick" campaign against us as we come together to form our union. They'll try to win us over, at the same time as they work to convince us that we don't need a union.

Remember, unless we have our wages, benefits and working conditions negotiated in a legally-binding union contract, anything the company gives us can be taken away at any time.

With our union, we'll have real say in improving our wages, benefits and working conditions.

Let's stick together!

In solidarity,

Your Co-Workers on the Teamsters Organizing Committee at FedEx Freight
