

# WE FILED

**FOR OUR UNION ELECTION AT US AIRWAYS!**

**On Tuesday, May 7 we filed for our Teamsters election with the NMB.**

We all have worked hard to get to this point and we are on our way to a more secure future at US Airways—as Teamsters!

- Soon, we will have the opportunity to negotiate a strong contract—a Teamster contract—that addresses our main concerns: job security, fair wages and good benefits, strong retirement security and having real union representation.
- The Teamsters have the capacity and experience to deal with the world's largest airline. The IAM will not survive the merger. Our pension will change and the Teamsters are the best choice to get us into a stronger pension fund. With the backing of the 1.4 million members, a powerful Airline Division, and more than 18,000 airline mechanics, the Teamsters Union is the only real choice for strong representation.
- The Teamsters is the only union actively working with both US Airways and American mechanics to help them organize. The Teamsters Airline Mechanics Coalition (TAMC) has a strong track record of fighting for airline mechanics nationwide, protecting thousands of jobs and working to address mechanics' major issues.

Let's all work together in the coming weeks and months and get the job done. Together, we will win a more secure future as Teamsters, the most powerful Union in North America.
