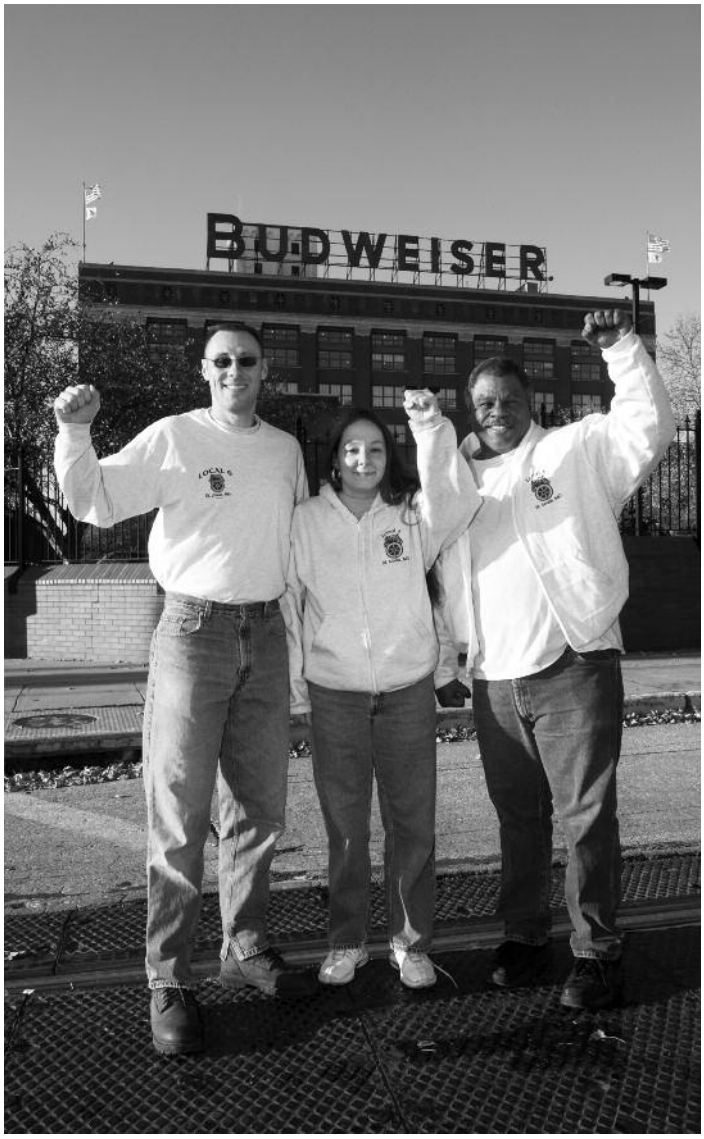
Here at Budweiser, we take over where you leave off.



We brew the beer that's in the aluminum bottles you work hard to make.

We're proud to be Teamsters at Budweiser and we want to make Budweiser a truly union beer, from start to finish. We support you in joining Teamsters Local 377.

There are just over 500 of us that work at Anheuser-Busch/Budweiser in Ohio and are Teamsters. Across the country, there are about 6,000 Teamsters at the company. Budweiser is EXAL's biggest customer.

One thing has made a major difference in our jobs, and that's knowing we have the power and backing of more than 1.4 million Teamsters across the continent. We're stronger together, which is just one of the many good reasons you should join us.

We know what to expect. We have a contract that provides for good wages, benefits, respect and fair treatment. We have Teamster representatives to enforce our contract and make sure that it is followed by management.

You work hard and deserve the best. We're here to tell you that the Teamsters is the best.

We wouldn't work without our Teamsters union working for us. So, why should you?

–Your Teamster friends at Budweiser
