**RE: TEAMSTER LOCAL UNIONS SUPPORT DISCUSSIONS
WITH YRCW**

On a conference call on Tuesday, November 12, Teamster Local Unions that represent YRCW Freight members voiced support for the Teamsters National Freight Industry Negotiating Committee (TNFINC) to meet with the company.

The decision to meet with the company comes after the Local Union leaders heard from the YRCW leadership team on Tuesday, November 5 and after they held meetings with their YRCW members throughout the week and weekend.

“YRCW has indicated it wants an extension and modifications to the existing MOU,” said Tyson Johnson, Teamsters National Freight Director and co-chairman of TNFINC. “We currently have an agreement in place through March 31, 2015. Any modification to that would need to be ratified by the affected membership in a secret ballot referendum.”
