

TEAMSTERS NATIONAL PIPELINE TRAINING FUND

TRAINING NOTICE

The Teamsters National Pipeline Training Fund in collaboration with Teamsters Local Union 657 will sponsor a Compliance, Safety, Accountability (CSA) training program. CSA is the new Federal Motor Carrier Safety Administration's regulation to reduce commercial motor vehicle (CMV) crashes.

The training program will focus on how the regulations affect you as a Teamster driver. Violations under this new federal rule may follow you from workplace to workplace. The training will give you the tools you need to protect your driving record and potential future employment as a driver.

In addition to a general review of a driver's responsibility, the training program will cover the Behavior Analysis and Safety Improvement Categories or 7 BASICS. These are the measurement tools used by the FMCSA to determine a carrier's safety performance using all roadside inspection safety-based violations. The training is intended for all commercial drivers.

When is this Training

Sunday, February 16, 2014

Location

**Texas A&M AgriLife Extension Service
At Brownwood Lake
4-H Conference Center
5600 Farm to Market 3021
Brownwood, Texas 76801
