Information About the Tentative Agreement for a One-Year Carhaul Contract Extension

Teamster Carhaul members will get to vote soon on the tentative one-year Carhaul contract extension that provides Maintenance of Benefits and monetary increases.

Ballot packages will be mailed on April 30 and votes will be counted on May 21. When you get your ballot package, read the materials and vote right away.

The Teamsters National Automobile Transporters Industry Negotiating Committee unanimously agrees that this proposal is in the best interests of our members, as the pandemic continues to cause severe economic impacts. Extending the contract for a year will allow the union to prepare for normal negotiations next year.

The good news is that while this is a one-year extension, the proposal extends the last year of the existing contract, which contains the highest monetary increases within the current contract.

This means that our members will, if ratified, benefit from the larger increases contained in the current contract. We strongly believe that this contract provides stability for our members during very unstable times.

For more information, visit teamster.org/carhaul2021/

If you have any questions after reading the online materials, please call your local union.

Ballots will be mailed April 30! Please read the materials closely and vote right away. **All ballots must be cast by 11am EDT, Friday, May 21**
