

### **Digital Media Technician**

The International Brotherhood of Teamsters (IBT) is America's largest, most diverse union. In 1903, the Teamsters started as a merger of the two leading team driver associations. These drivers were the backbone of America's robust economic growth, but they needed to organize to wrest their fair share from greedy corporations. Today, the Union's task is exactly the same.

The Teamsters are known as the champion of freight drivers and warehouse workers, but have organized workers in virtually every occupation imaginable, both professional and non-professional, private sector and public sector.

The Strategic Initiatives Department oversees the Teamsters' communications, strategic research, economic analysis, and capital strategies as well as the Teamsters History Project. Strategic Initiatives provides essential resources to Teamster affiliates to succeed in organizing, public relations and contract campaigns, expand audience reach and improve messaging and public perception of the Teamsters.

The **Digital Media Technician** is responsible for the photography and videography of Teamster events and creation of video presentations, as well as assisting with the planning, organizing, and directing and activities of the Strategic Initiatives Department to ensure the optimum level of department efficiency is obtained. The Digital Media Technician position is based in Washington, DC, and is required to work in the headquarters.
