## **Poll Methodology**

Ahead of any possible International Union endorsement for U.S. President in 2024, the Teamsters committed to assembling rank-and-file Presidential roundtables with all major candidates for the first time in the union's history and conducting union-wide polling of the membership. This inclusive campaign would ensure that members' voices were at the forefront of any endorsement decision. Engagement occurred through worksite visits, social media, member texting, in-person straw polls conducted by affiliates, a phone poll using statistically valid sampling, and an electronic member poll open to all rank-and-file Teamsters in the U.S. By several metrics, this outreach helped drive the most transparent and sustained engagement in the political process by Teamsters in decades.

### **Teamsters Presidential Town Hall Straw Polls**

Teamsters local unions across the U.S. conducted straw polls from April 9-July 3, 2024. The poll used uniform cards nationwide asking, "Who should the Teamsters Union endorse for President of the United States in 2024?" Most straw polls were held in person at local union halls as part of monthly membership meetings. Some affiliates elected to hold standalone town halls separate from any regularly scheduled meetings. More than 12,000 rank-and-file Teamsters participated in these town halls and straw poll voting.

### **Teamsters Electronic Member Poll**

The electronic member poll was open to all U.S. Teamsters and ran from July 24-September 15, 2024—a period following President Joe Biden's withdrawal from the Presidential race. Members received notification about the electronic poll through the quarterly Teamster Magazine mailed to all members in July, as well as through multiple social media and reminder postcards sent to members' homes. The electronic poll was independently managed by BallotPoint Election Services. The same question asked in the straw polls appeared on the electronic poll: "Who should the Teamsters Union endorse for President of the United States in 2024?" More than 35,000 Teamsters responded to and participated in the electronic member poll.

### **Teamsters Research Phone Poll**

The research phone poll ran from September 9-15, 2024, following the Democratic National and Republican National conventions. The phone poll was independently managed by Lake Research Partners. It used both phone and text-to-web methods to reach a representative sampling of 900 rank-and-file Teamsters from a cross-section of Teamsters working in core industries around the country. Members were selected using a statistically valid sampling of the Teamsters' U.S. membership who are registered to vote. The phone poll asked, "Which Presidential candidate are you most likely to vote for in November 2024?"

# 2024 Teamsters Membership Polling on the US Presidential Race

## Summary of National Results

### Teamsters Research Phone Poll

(Sept. 9-15, 2024)

National Results - US			
Valid sample of 900 Teamsters
