

WE WON *our* **UNION ELECTION** *at* **REPUBLIC AIRWAYS!**

After months of hard work, determination, and solidarity, we have officially won our union election.

This victory was made possible because our mechanics and related employees at Republic Airways stood together, supported each other, and stayed committed to building a stronger future at work.

***Winning this election is a major achievement —
but our work has just begun!***

As we work toward our first contract, it's important that we stick together and focus on what matters most: securing the strongest possible agreement for our members that includes meaningful improvements, recognizes the value of our work, and sets a strong foundation for the future.

We will hold a town hall next week with more information and will send those details soon.

WELCOME *to the* **TEAMSTERS!**
